

## **Doors & Windows**

### **PRODUCT GUARANTEE**

We have made high quality Profin products for You, the life cycle of which, with careful use, will extend over decades to come. Depending on the conditions of the place of use and the amount of use, the planned usage life of the products is over 50 years.

Profin Oy gives a 5 year structural guarantee on its products which have been finish painted or lacquered at the factory. The guarantee will compensate for any flaws due to production faults as well as structural flaws in the fittings. The corresponding guarantee on wood ready windows/windows with protective treatment is 3 years.

A 10 year guarantee is given on the thermal glass element, during which time the element that has leaked and fogged up between the panes will be replaced.

The guarantee does not compensate for flaws due to faulty installation, use or normal wear.

It is a prerequisite for the guarantee that instructions for installation, use and maintenance given by Profin Oy have been followed during installation and use.
